BARBARA SHERWOOD LOLLAR

Old Water, New Discoveries

K. Gorra Dept of Earth Sciences,
University of Toronto

Dr. Sherwood Lollar developed techniques to identify chemical signatures in groundwaters to remediate contamination and to investigate water isolated kilometres below the Earth's surface for millions of years. With colleagues, she discovered the world's oldest water, estimated to be more than a billion years old.

Ingenium and NSERC are committed to encouraging and empowering women and girls in science, technology, engineering, and math. Learn more at: ingeniumcanada.org/womeninstem
