# KAY TYE

## Shedding Some Light

MIT

The child of two scientists, Tye became involved in science as a child, assisting her mother in the laboratory. She now works in optogenetics, the study of using light to stimulate cells.

Ingenium is committed to encouraging and empowering women and girls in science, technology, engineering, and math. Learn more at: [ingeniumcanada.org/womeninstem/](https://ingeniumcanada.org/womeninstem/)
