SYLVIA FEDORUK

Targeting Cancer

USask Archives,
H.E. Johns fonds, MG372

As a physicist, Fedoruk used her expertise to help develop the world's first cobalt-60 cancer therapy unit. She was able to develop a technique to modify the beam of radiation from the device to specifically target cancerous tumors.

Ingenium is committed to encouraging and empowering women and girls in science, technology, engineering, and math. Learn more at:
