KRYSTEN RUTHERFORD

Carbon in Our Oceans

Krysten Rutherford

Rutherford uses a combination of science, math and programming to understand how the carbon cycle works in the ocean and anticipate changes. She focuses on how increased carbon dioxide in the air can affect ocean health.

Ingenium, Fisheries and Oceans Canada and Canadian Commission for UNESCO are committed to encouraging and empowering women and girls in science, technology, engineering, and math. Learn more at: ingeniumcanada.org/womeninstem/
