GWEN HEALEY AKEAROK

Elevating Inuit Science and Knowledge

Healey Akearok founded the Qaujigiartiit Health Research Centre to leverage the knowledge and strengths of Canadian northern communities. The Centre supports Nunavummiut to embrace all forms of scientific knowledge - and in particular to harness Inuit science, knowledge, and teaching - to address health and climate challenges in the Arctic.

Ingenium is committed to encouraging and empowering women and girls in science, technology, engineering, and math. Learn more at: ingeniumcanada.org/womeninstem/
