ANTJE BOETIUS

Life Under the Ice

© Esther Horvath, AWI

A German polar and deep-sea researcher, Antje Boetius' research draws attention to the effects of climate change on polar seas and the biodiversity of the deep sea. She has participated in over 50 research expeditions.

This poster was developed as a part of a subseries in the context of the All-Atlantic Ocean Research and Innovation Alliance (AAORIA). Ingenium, Fisheries and Oceans Canada and Canadian Commission for UNESCO are committed to encouraging and empowering women and girls in science, technology, engineering, and math.
